Dear Dr Ridgill

On behalf of the British Government, I am delighted to write to support the initiatives and work of the American Friends of British Art. Their mission to help fund historic restoration and preservation projects in the United Kingdom reinforces the unique links between our two countries.

I would like to recognise and encourage the efforts of the American Friends of British Art as you continue to share with the American public the importance of Britain's artistic heritage and rich historical past and the need for the preservation of our many cultural treasures. We greatly value your personal role in founding and leading the organisation.

I send my best wishes for your continued success.

Yours sincerely

Nigel Sheinwald
